INDEX TO VOLUME 23

AUTHOR INDEX

Abeles, F. B.
Ethylene: An urban air pollutant 23(6) p. 517
Aceto, L. D.
Effects of liquid water addition in gas turbine combustors 23(2) p. 116
Akland, G. G.
Procedures for handling aerometric data 23(3) p. 180
Albrecht, R. M.
Discussion of: Family surveys of irritation symptoms during acute air pollution exposures: 1970 summer and 1971 spring studies 23(2) p. 88
Allen, R. J.
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis: Authors' reply 23(11) p. 970
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Altshuller, A. P.
Non-methane hydrocarbon air quality measurements 23(7) p. 597
Andelman, R.
Family surveys of irritation symptoms during acute air pollution exposures: 1970 summer and 1971 spring studies 23(2) p. 81
Appel, B. R.
New and more sensitive procedure for analysis of peroxybenzoyl nitrate 23(12) p. 1042
Archer, D. H.
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Aschbacher, P. W.
Air pollution research needs: Livestock production systems 23(4) p. 267

Babcock, L. R., Jr.
Cost effectiveness of emission control 23(3) p. 173
Ball, J. J.
Ambient SO_2 detector based on a fluorescence method 23(6) p. 514
Beery, W. T.
Report on the First APCA Government Affairs Seminar. 23(6) p. 475
Beg, S. A.
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
Beizaie, M.
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
Bell, C. G.
Effectiveness of vertical mist eliminators in a cross flow scrubber 23(11) p. 967
Benforado, D. M.
APCA's role in a cleaner environment 23(8) p. 664
How do we really stand with the Clean Air Act? 23(10) p. 837
Bennett, J. H.
Absorption of gaseous air pollutants by a standardized plant canopy 23(3) p. 203
Model for gaseous pollutant sorption by leaves 23(11) p. 957
Bethea, R. M.
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Billings, C. E.
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Blacker, J. H.
Evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline method) 23(6) p. 525
Blakeslee, C. E.
Controlling NO_x emissions from steam generators 23(1) p. 37
Botts, W. V.
Molten carbonate process of SO_2 removal from stack gases: Process description, economics, and pilot plant design 23(3) p. 190
Breitenbach, L. P.
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Brenchley, D. L.
Barium additives as diesel smoke suppressants 23(9) p. 783
Reports from 1972 APCA European tour: France 23(7) p. 577
Brief, R. S.
Evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline method) 23(6) p. 525
Broger, E. D.
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Burbach, H. E.
Controlling NO_x emissions from steam generators 23(1) p. 37
Burton, R. M.
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277

Calvert, S.
Forum: Let's be practical 23(2) p. 76
Carpenter, S. B.
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Chang, T. Y.
Urban CO concentrations and vehicle emissions 23(8) p. 691
Chapman, H. M.
Forum: Compliance testing requirements 23(1) p. 6
Charlson, R. J.
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Childers, R. E.
Collaborative testing of methods to measure air pollutants. II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Clark, T. A.
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Confer, R. G.
Evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline method) 23(6) p. 525
Coniglio, W. R.
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Corn, M.
Forum: London revisited 23(7) p. 568

Crittenden, A. L.
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Croke, K. G.
Emission prediction and control strategy: Evaluation of pollution from transportation sources 23(2) p. 91
Cross, B. S.
Legislation and a better environment 23(8) p. 660

Dabberdt, W. F.
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis: Authors' reply 23(11) p. 970
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Deland, R. J.
Note on estimation of plume rise for large thermal sources 23(4) p. 293
Deutch, M. J.
Forum: Energy and the environment 23(8) p. 653
DiGiacomo, J.
New approaches to the design of afterburners for varnish cookers 23(4) p. 287
Driscoll, J. N.
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858

Eliassen, R.
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Engdahl, R. B.
Critical review of regulations for the control of sulfur oxide emissions 23(5) p. 364
Engel, A.
Note on intergovernmental relations in air pollution research 23(6) p. 528
English, T.
Family surveys of irritation symptoms during acute air pollution exposures: 1970 summer and 1971 spring studies 23(2) p. 81
Esmen, N. A.
Direct measurement method for dustfall 23(1) p. 34

Feldstein, M.
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Feller, I.
Note on intergovernmental relations in air pollution research 23(6) p. 528
Forney, A. J.
Aerial detection of vegetation damage utilizing a simple 35-mm camera system 23(9) p. 788
Forrest, J.
Ambient air monitoring for sulfur compounds 23(9) p. 761
Friedman, R.
Note on intergovernmental relations in air pollution research 23(6) p. 528

Galloway, T. R.
Evaluation of the effectiveness of the lead peroxide method for atmospheric monitoring of sulfur dioxide 23(7) p. 605
Gates, D. M.
Model for gaseous pollutant sorption by leaves 23(11) p. 957
Gillies, D. K. A.
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Golden, J.
Smoke curve calibration 23(2) p. 110
Goldstein, I. F.
Discussion of: Family surveys of irritation symptoms during acute air pollution exposures: 1970 summer and 1971 spring studies 23(2) p. 87
Gravatt, C. C., Jr.
Real time measurement of the size distribution of particulate matter by a light scattering method 23(12) p. 1035
Griffin, R. M.
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Gussman, R. A.
Design and calibration of a high volume cascade impactor 23(9) p. 778

Halow, J. S.
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676
Hanan, J. J.
Ethylene dosages in Denver and marketability of cut-flower caranations 23(6) p. 522
Harley, R. A.
Mercury balance on a large pulverized coal-fired furance 23(9) p. 773
Harney, B. M.
Aerial detection of vegetation damage utilizing a simple 35-mm camera system 23(9) p. 788
Harrington, J. J.
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282
Heck, W. W.
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Heggestad, H. E.
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Ethylene: An urban air pollutant 23(6) p. 517
Heicklen, J.
Photooxidation of 2-bromoethanol 23(8) p. 714
Hemeon, W. C. L.
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Henderson, V. L.
Noise monitoring and a sociological survey in the city of Toronto 23(2) p. 105
Hensel, E. G.
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Hesketh, H. E.
Atomization and cloud behavior in venturi scrubbing 23(7) p. 600
Hill, A. C.
Absorption of gaseous air pollutants by a standardized plant canopy 23(3) p. 203
Model for gaseous pollutant sorption by leaves 23(11) p. 957
Hitchon, B.
Source and budget of sulfate in precipitation from Central Alberta, Canada 23(3) p. 194
Hoekstra, I. A.
Forum: Rating air pollution 23(3) p. 164
Horowitz, J.
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273
Retrofit for reducing automobile emissions: Effectiveness and cost 23(5) p. 395

Howard, J. N.
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277

Ingram, W. T.
Smoke curve calibration 23(2) p. 110
Iverson, R. E.
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Ivey, L. R.
Tools for evaluating new process and control plans 23(6) p. 482

Jaworowski, R. J.
Condensed sulfur trioxide—Particulate or vapor. 23(9) p. 791
Jensen, D. A.
How do we really stand with the Clean Air Act. An industry viewpoint 23(10) p. 838
Jensen, P.
Control of environmental noise 23(12) p. 1028
Johnson, W. B.
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis: Authors' reply 23(11) p. 970
Urban diffusion simulation model for carbon monoxide 23(6) p. 490

Kahn, H. D.
Note on the distribution of air pollutants 23(11) p. 973
Kaiser, A.
Forum: Controversy must not become confrontation 23(11) p. 924
Kamens, R. M.
Methane in air quality and automobile exhaust emission standards 23(7) p. 592
Kats, G.
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Kearns, D. L.
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Koczkur, E.
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Kohn, R. E.
Pollution control by locational change and technological abatement 23(12) p. 1045
Kollrack, R.
Effects of liquid water addition in gas turbine combustors 23(2) p. 116
Kopczynski, S. L.
Non-methane hydrocarbon air quality measurements 23(7) p. 597
Kornreich, L. D.
University Consortia: A unique approach to environmental education and research 23(9) p. 755

Lamb, A.
Gas chromatographic method for exhaust gas analysis 23(3) p. 200
Landolt, R. R.
Barium additives as diesel smoke suppressants 23(9) p. 783
Larsen, R. I.
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Comment on a new mathematical model of air pollution concentration 23(4) p. 292
Larson, K. A.
Gas chromatographic method for exhaust gas analysis 23(3) p. 200
Lee, R. E., Jr.
Trace metal pollution in the environment 23(10) p. 853
Lee, W. L.
Stack height requirements implicit in the federal standards of performance of new stationary sources 23(6) p. 505
Levaggi, D. A.
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Levy, A.
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
Liang, S. F.
Evaluation of the effectiveness of the lead peroxide method for atmospheric monitoring of sulfur dioxide 23(7) p. 605
Lightstone, A. D.
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Lindvall, T.
Sensory measurement of ambient traffic odors 23(8) p. 697
Lombardo, L. V.
Forum 23(6) p. 471
Lonneman, W. A.
Non-methane hydrocarbon air quality measurements 23(7) p. 597
Louw, R.
Nitrogen trioxide: Key intermediate in the chemistry of polluted air? 23(8) p. 716
Ludwig, F. L.
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis: Authors' reply 23(11) p. 970
Preliminary study of modeling of air pollution effects from traffic engineering alternatives 23(6) p. 499
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Lukacs, J.
Forum: A step in the right direction 23(4) p. 244

Mage, D. T.
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis 23(11) p. 970
Manka, D. P.
Control of H_2S emissions during slag quenching 23(10) p. 864
Margeson, J. H.
Collaborative testing of methods to measure air pollutants. II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Matson, W. R.
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Matula, R. A.
University Consortia: A unique approach to environmental education and research 23(9) p. 755
McAdie, H. G.
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
McClellan, G. H.
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122
McCrea, D. H.
Aerial detection of vegetation damage utilizing a simple 35-mm camera system 23(9) p. 788
McGinty, R. T.
University Consortia: A unique approach to environmental education and research 23(9) p. 755
McKee, H. C.
Collaborative testing of methods to measure air pollutants. II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870

McMahon, N. M.
Design and calibration of a high volume cascade impactor 23(9) p. 778
Meroney, R. E.
Reports from 1972 APCA European tour: Great Britain 23(7) p. 574
Miller, D. F.
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
Mills, M. E.
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122
Montgomery, T. L.
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Moon, A. E.
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499

Nader, J. S.
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Nagda, N. L.
Cost effectiveness of emission control 23(3) p. 173
Nehls, G. J.
Procedures for handling aerometric data 23(3) p. 180
Nelson, C. J.
Family surveys of irritation symptoms during acute air pollution exposures: 1970 summer and 1971 spring studies 23(2) p. 81
Newby, R. A.
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Newman, L.
Ambient air monitoring for sulfur compounds 23(9) p. 761
Nieboer, H.
Nitrogen Trioxide: Key Intermediate in the Chemistry of Polluted Air. 23(8) p. 716
Norco, J. E.
Emission prediction and control strategy: Evaluation of pollution from transportation sources 23(2) p. 91
Norris, W. B.
Simplified technique used to evaluate atmospheric dispersion on emissions from large power plants 23(5) p. 388

Okabe, H.
Ambient SO_2 detector based on a fluorescence method 23(6) p. 514
Oldenkamp, R. D.
Molten carbonate process of SO_2 removal from stack gases: Process description, economics, and pilot plant design 23(3) p. 190
Ott, W.
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685

Partridge, L. J., Jr.
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282
Patel, N. R.
Comment on a new mathematical model of air pollution concentrations 23(4) p. 291
Penley, R. L.
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Peterson, E. W.
Interaction of population growth, industrial growth and pollution control 23(1) p. 11
Phelps, A. H.
Need for frequency analysis in the identification and solution of noise problems 23(1) p. 17

Ramsey, P. A.
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Randolph, J.
Forum: Congress: Responsible and accountable 23(5) p. 344
Reethof, G.
Effect of plantings on radiation of highway noise 23(3) p. 185
Rehmus, F. H.
Control of H_2S emissions during slag quenchings 23(10) p. 864
Rider, T. H.
University Consortia: A unique approach to environmental education and research 23(9) p. 755
Rihm, A., Jr.
How do we really stand with the Clean Air Act? A state government viewpoint 23(10) p. 838
Rogers, L. H.
APCA has a banner year 23(8) p. 665
Rome, S.
How do we really stand with the Clean Air Act? A public interest group viewpoint 23(10) p. 840
Rush, D.
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Russell, J. C.
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98

Sacco, A. M.
Design and calibration of a high volume cascade impactor 23(9) p. 778
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Sandys, R. C.
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Schneider, A. M.
Effluent fee schedule for air pollutants based on Pindex 23(6) p. 486
Schuetzle, D.
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704

SUBJECT INDEX

Absorption
Absorption of gaseous air pollutants by a standardized plant canopy 23(3) p. 203
Acute Diseases
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Additives
Barium additives as diesel smoke suppressants 23(9) p. 783
Aerometry
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Procedures for handling aerometric data 23(3) p. 180
Aerosols
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
Aerosols, Sampling
Design and calibration of a high volume cascade impactor 23(9) p. 778
Afterburners
Tools for evaluating new process and control plans 23(6) p. 482
Afterburners, Design
New approaches to the design of afterburners for varnish cookers 23(4) p. 287
Agriculture
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Air Data Systems
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Air Pollution Control Association
Air Pollution Control Association critical reviews program 23(5) p. 363
Air Pollution Models
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Interaction of population growth, industrial growth and pollution control 23(1) p. 11
Model for gaseous pollutant sorption by leaves 23(11) p. 957
Note on the distribution of air pollutants 23(11) p. 973
Preliminary study of modeling of the air pollution effects from traffic engineering alternatives 23(6) p. 499
Aircraft
Noise control legislation 23(4) p. 251.
Alberta
Source and budget of sulfate in precipitation from central Alberta, Canada 23(3) p. 194
Alert Systems
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Aluminum Industry
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Ammonia
Development of a method for the analysis of NO_2 and NH_3 by measuring instruments 23(2) p. 128
Analytical Methods
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858
Collaborative testing of methods to measure air pollutants II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
New and more sensitive procedure for analysis of peroxybenzoyl nitrate 23(12) p. 1042
Note on an evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline Method) 23(6) p. 525
Analytical Methods, Nitrogen Oxides
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Analytical Methods, Sulfur Compounds
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Animal Effects
Air pollution research needs: Livestock production systems 23(4) p. 267
Animal Feedlots
Air pollution research needs: Livestock production systems 23(4) p. 267
Annual Meeting
66th annual meeting: Summary of activities 23(8) p. 659
Atmospheric Dispersion
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Atomization
Atomization and cloud behavior in venturi scrubbing 23(7) p. 600
Automobiles
Surface transportation noise and its control 23(8) p. 701
Automobiles, Emissions Control
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845
Automotive Emissions
Effectiveness and cost of retrofit for reducing automobile emissions 23(5) p. 395
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273
Noise control legislation 23(4) p. 251
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Report on the first APCA government affairs seminar 23(6) p. 475
Sensory measurement of ambient traffic odors 23(8) p. 697
Strengthening the Clean Air Act 23(12) p. 1019
Urban CO concentrations and vehicle emissions 23(8) p. 691
Automotive Exhaust
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
Ethylene: An urban air pollutant 23(6) p. 517
Methane in air quality and automobile exhaust emission standards 23(7) p. 592
Automotive Exhaust, Analysis
Gas chromatographic method for exhaust gas analysis 23(3) p. 200
Automotive Noise
Effect of plantings on radiation of highway noise 23(3) p. 185

Barium
Barium additives as diesel smoke suppressants 23(9) p. 783
Biological Effects
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Birmingham
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Boilers
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Controlling NO_x emissions from steam generators 23(1) p. 37
Boston
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282
Buildings
Outdoor-indoor levels of six air pollutants 23(10) p. 881

Calcium
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122
Canada
Air quality standards: National and international 23(11) p. 945
Canopy, Plant
Absorption of gaseous air pollutants by a standardized plant canopy 23(3) p. 203
Carbon
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Carbon Monoxide
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Carbon Monoxide, Concentration
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Sensory measurement of ambient traffic odors 23(8) p. 697
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Urban CO concentrations and vehicle emissions 23(8) p. 691
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Carbon Monoxide, Determination
Collaborative testing of methods to measure air pollutants II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Carbon Monoxide, Emissions Control
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Carbon Monoxide, Measurement
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis 23(11) p. 970
Cattle
Air pollution research needs: Livestock production systems 23(4) p. 267
Chattanooga
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769
Chemical Analysis
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
CHESS Program
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Chicago
Noise control legislation 23(4) p. 251
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Clean Air Act
How do we really stand with the Clean Air Act? 23(10) p. 837
Legislation and a better environment 23(8) p. 660
Report on the first APCA government affairs seminar 23(6) p. 475
Strengthening the Clean Air Act 23(12) p. 1019
Urban CO concentrations and vehicle emissions 23(8) p. 691
Coal Fired Boilers
Controlling NO_x emissions from steam generators 23(1) p. 37
Coefficient of Haze
Smoke curve calibration 23(2) p. 110
Collaborative Studies
Collaborative testing of methods to measure air pollutants II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Combustion Chambers
Effects of liquid water addition in gas turbine combustors 23(2) p. 116
Combustion Processes
Effects of liquid water addition in gas turbine combustors 23(2) p. 116
Community Exposure
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Community Problems
Effect of plantings on radiation of highway noise 23(3) p. 185
Noise control legislation 23(4) p. 251
Computer Applications
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Control of H_2S emissions during slab quenching 23(10) p. 864
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676
Sulfur dioxide standards: Primary more restrictive than secondary? 23(12) p. 1039
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Computer Programs
Procedures for handling aerometric data 23(3) p. 180
Computerized Simulation
University consortia: A unique approach to environmental education and research 23(9) p. 755
Concentration Distribution
Comment on a new mathematical model for air pollution concentration 23(4) p. 291
Conductimetric Analysis
Note on an evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline method) 23(6) p. 525
Conferences
IGCI Executive forum examines growth trends in the business of gas cleaning 23(3) p. 169
Program: Third International Clean Air Congress 23(7) p. 582
Report on the first APCA government affairs seminar 23(6) p. 475
Construction Equipment
Noise control legislation 23(4) p. 251
Consultants
Consultant Guide/1973 23(7) p. 635
Economics of environmental quality measurement 23(8) p. 671
Continuous Air Monitoring Program (CAMP)
Urban CO concentrations and vehicle emissions 23(8) p. 691
Control Agencies
Cost effectiveness of emission control 23(3) p. 173
Control Costs
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98

Cost effectiveness of emission control 23(3) p. 173
Control Devices, Automobile
Effectiveness and cost of retrofit for reducing automobile emissions 23(5) p. 395
Control Equipment
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
IGCI Executive forum examines growth trends in the business of gas cleaning 23(3) p. 169
New approaches to the design of afterburners for varnish cookers 23(4) p. 287
Control Strategies
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Control of environmental noise 23(12) p. 1028
Pollution control by locational change and technological abatement 23(12) p. 1045
Cost Analysis
Air pollution abatement on primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Cost effectiveness of emission control 23(3) p. 173
Economics of environmental quality measurement 23(8) p. 671
Effectiveness and cost of retrofit for reducing automobile emissions 23(5) p. 395
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273
Molten carbonate process for SO_2 removal from stack gases: Process description, economics and pilot plant design 23(3) p. 190
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845
Cost Benefit Analysis
Cost effectiveness of emission control 23(3) p. 173
Criteria
Need for frequency analysis in the identification and solution of noise problems 23(1) p. 17
Critical Reviews
Air Pollution Control Association Critical reviews program 23(5) p. 363
Ambient air monitoring for sulfur compounds 23(9) p. 761
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Critical review of regulations for the control of sulfur oxide emissions 23(5) p. 364
Czechoslovakia
Air quality standards: National and international 23(11) p. 945

Data Analysis
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Data Processing Systems
Procedures for handling aerometric data 23(3) p. 180
Denver
Ethylene dosages in Denver and marketability of cut-flower carnations 23(6) p. 522
Desulfurization
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Detectors
Ambient and source SO_2 detector based on a fluorescence method 23(6) p. 514
Diesel Engines, Emissions Control
Barium additives as diesel smoke suppressants 23(9) p. 783
Diffusion Models
Evaluation of the effectiveness of the lead peroxide method for atmospheric monitoring of sulfur dioxide 23(7) p. 605
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis 23(11) p. 970
Pollution control by locational change and technological abatement 23(12) p. 1045
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Sulfur dioxide standards: Primary more restrictive than secondary? 23(12) p. 1039
Urban CO concentrations and vehicle emissions 23(8) p. 691
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Dispersion Models
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Dustfall Measurements
Direct measurement method for dustfall 23(1) p. 34

Economic Aspects
Economics of environmental quality measurement 23(8) p. 671
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845
Taxing emissions: A theoretical note 23(12) p.
Economic Effects
Cost effectiveness of emission control 23(3) p. 173
Education
University consortia: A unique approach to environmental education and research 23(9) p. 755
Effluent Fee System
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Electric Power Plants
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Molten carbonate process for SO_2 removal from stack gases: Process description, economics and pilot plant design 23(3) p. 190

Health Effects
Control of environmental noise 23(12) p. 1028
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Critical review of regulations for the control of sulfur oxide emissions 23(5) p. 364

Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
New and more sensitive procedure for analysis of peroxybenzoyl nitrate 23(12) p. 1042
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769

High Volume Samplers
Design and calibration of a high volume cascade impactor 23(9) p. 778
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277

Humidity
Tools for evaluating new process and control plans 23(6) p. 482

Hydrocarbons
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Methane in air quality and automobile exhaust emission standards 23(7) p. 592

Hydrocarbons, Emission
Effects of liquid water addition in gas turbine combustors 23(2) p. 116

Hydrocarbons, Emissions Control
Emissions prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91

Hydrocarbons, Measurement
Methane in air quality and automobile exhaust emission standards 23(7) p. 592
Mon-methane hydrocarbon air quality measurements 23(7) p. 597

Hydrocarbons, Reactions
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949

Hydrogen Sulfide
Ambient air monitoring for sulfur compounds 23(9) p. 761
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Control of H_2S emissions during slag quenching 23(10) p. 864

Impactors
Design and calibration of a high volume cascade impactor 23(9) p. 778
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277

Industrial Gas Cleaning Institute
IGCI Executive forum examines growth trends in the business of gas cleaning 23(3) p. 169

Industrial Growth Rate
Interaction of population growth, industrial growth and pollution control 23(1) p. 11

Industrial Problems
Tools for evaluating new process and control plans 23(6) p. 482

Industrial Sources
Air pollution research needs: Livestock production systems 23(4) p. 267

Infrared Analysis
Collaborative testing of methods to measure air pollutants II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128

Inorganic Compounds
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704

Inspection
Effectiveness and cost of retrofit for reducing automobile emissions 23(5) p. 395
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845

Instrumentation
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Noise control legislation 23(4) p. 251
Product Guide/1973 23(12) p. 1097
Real time measurement of the size distribution of particulate matter by a light scattering method 23(12) p. 1035

International Conferences
Program: Third International Clean Air Congress 23(7) p. 582

International Problems
Air quality standards: National and international 23(11) p. 945
Where we are?—International air pollution 23(7) p. 573

International Smoke Curve
Smoke curve calibration 23(2) p. 110

Interstate Problems
Strengthening the Clean Air Act 23(12) p. 1019

Ionization
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858

Iron and Steel Industry
Control of H_2S emissions during slag quenching 23(10) p. 864

Isopleths
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505

Isotopes
Photooxidation of 2-bromoethanol 23(8) p. 714

Japan
Air quality standards: National and international 23(11) p. 945

Lead
Air pollution research needs: Livestock production systems 23(4) p. 267

Lead Peroxide
Evaluation of the effectiveness of the lead peroxide method for atmospheric monitoring of sulfur dioxide 23(7) p. 605

Legislation
Legislation and a better environment 23(8) p. 660
Noise control legislation 23(4) p. 251
Strengthening the Clean Air Act 23(12) p. 1019

Light Scattering
Effect of fuel composition on atmospheric aerosol due to auto exhaust 23(11) p. 949
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676

Light Scattering Measurement
Real time measurement of the size distribution of particulate matter by a light scattering method 23(12) p. 1035

Limestone
Assessment of fluidized bed oil gasification for power generation 23(1) p. 23
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122

Literature Survey
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963

Load Control
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282
Local Problems
Note on intergovernmental relations in air pollution research 23(6) p. 528
Los Angeles
Note on satellite remote sensing of atmospheric aerosol 23(6) p. 527

Maintenance
Effectiveness and cost of retrofit for reducing automobile emissions 23(5) p. 395
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845
Management
University consortia: A unique approach to environmental education and research 23(9) p. 755
Manpower
Economics of environmental quality measurement 23(8) p. 671
Mass Spectroscopy
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Photooxidation of 2-bromoethanol 23(8) p. 714
Material Balance
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Mathematical Models
Comment on a new mathematical model for air pollution concentration 23(4) p. 291
Note on a method to estimate missing air pollution data 23(3) p. 207
Note on the distribution of air pollutants 23(11) p. 973
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Measurement Systems
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Measuring Techniques
Ambient and source SO_2 detector based on a fluorescence method 23(6) p. 514
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Measuring Techniques, Particulates
Direct measurement method for dustfall 23(1) p. 34
Mercury Compounds
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Meteorological Aspects
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Meteorological Conditions
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Meteorological Forecasting
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Meteorological Measurements
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Methane
Methane in air quality and automobile exhaust emission standards 23(7) p. 592
Mist Control
Effectiveness of vertical mist eliminators in a cross flow scrubber 23(11) p. 967
Molten Carbonate Process
Molten carbonate process for SO_2 removal from stack gases: Process description, economics and pilot plant design 23(3) p. 190
Molybdenum
Air pollution research needs: Livestock production systems 23(4) p. 267
Monitoring
Ambient air monitoring for sulfur compounds 23(9) p. 761
Monitoring Instruments
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Monitoring Networks
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Monitoring Systems
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Municipal Incinerators
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282

National Aerometric Data Bank
Procedures for handling aerometric data 23(3) p. 180
National Air Surveillance Networks
Procedures for handling aerometric data 23(3) p. 180
National Environmental Policy Act
Report on the first APCA government affairs seminar 23(6) p. 475
National Industrial Pollution Control Council
Legislation and a better environment 23(8) p. 660
Natural Gas
Gas supply situation in the United States 23(12) p. 1023
Netherlands
Reports from 1972 APCA European Tour—The Netherlands 23(7) p. 576
New York
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Smoke curve calibration 23(2) p. 110
Nitric Acid
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769
Nitrogen Compounds
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Nitrogen Dioxide
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769
Nitrogen Oxides
Nitrogen trioxide: Key intermediate in the chemistry of polluted air? 23(8) p. 716
Photooxidation of 2-bromoethanol 23(8) p. 714
Nitrogen Oxides, Concentration
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Nitrogen Oxides, Emissions Control
Controlling NO_x emissions from steam generators 23(1) p. 37
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Noise Control Act
Surface transportation noise and its control 23(8) p. 701

Noise Problems
Control of environmental noise 23(12) p. 1023
Effect of plantings on radiation of highway noise 23(3) p. 185
Need for frequency analysis in the identification and solution of noise problems 23(1) p. 17
Noise control legislation 23(4) p. 251
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Surface transportation noise and its control 23(8) p. 701
Noise Sources
Control of environmental noise 23(12) p. 1023
Non-Degradation
Report on the first APCA government affairs seminar 23(6) p. 475
Strengthening the Clean Air Act 23(12) p. 1019

Occupational Safety and Health Act
Noise control legislation 23(4) p. 251
Odor Measurement
Sensory measurement of ambient traffic odors 23(8) p. 697
Oil Fired Equipment
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791
Controlling NO_x emissions from steam generators 23(1) p. 37
Optical Measurement
Development of a method for the analysis of NO_2 and NH_3 by NO-measuring instruments 23(2) p. 128
Optical Properties
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676
Organic Compounds
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Photoxidation of 2-bromoethanol 23(8) p. 714
Organisms
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Oxidants, Concentration
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Ozone, Concentration
Non-methane hydrocarbon air quality measurements 23(7) p. 597

Paint Industry
New approaches to the design of afterburners for varnish cookers 23(4) p. 287
Particle Size Analysis
Design and calibration of a high volume cascade impactor 23 (9) p. 778
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Real time measurement of the size distribution of particulate matter by a light scattering method 23(12) p. 1035
Particle Size Distribution
Barium additives as diesel smoke suppressants 23(9) p. 783
Particulates
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Particulates, Concentration
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Outdoor-indoor levels of six air pollutants 23(10) p. 881
Particulates, Emissions Control
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Particulates, Health Effects
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Particulates, Measurement
Barium additives as diesel smoke suppressants 23(9) p. 783
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Real time measurement of the size distribution of particulate matter by a light scattering method 23(12) p. 1035
Smoke curve calibration 23(2) p. 110
Particulates, Sampling
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791
Performance Standards
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505
Performance Testing
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
Peroxyacetyl Nitrate
Nitrogen trioxide: Key intermediate in the chemistry of polluted air? 23(8) p. 716
Peroxybenzoyl Nitrate
New and more sensitive procedure for analysis of peroxybenzoyl nitrate 23(12) p. 1042
Pesticides
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Photochemical Reactions
Photooxidation of 2-bromoethanol 23(8) p. 714
Photographic Observations
Aerial detection of vegetation damage utilizing a simple 35-mm camera system 23(9) p. 788
Atomization and cloud behavior in Venturi scrubbing 23(7) p. 600
Photoionization
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858
Photolysis
Methane in air quality and automobile exhaust emission standards 23(7) p. 592
Photooxidation of 2-bromoethanol 23(8) p. 714
Photometry
Comparison of hydrogen sulfide analysis techniques 23(8) p. 710
Direct measurement method for dustfall 23(1) p. 34
Non-methane hydrocarbon air quality measurements 23(7) p. 597
Phytotoxicity
Ethylene dosages in Denver and marketability of cut-flower carnations 23(6) p. 522
Ethyiene: An urban air pollutant 23(6) p. 517
Pilot Plants
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
Molten carbonate process for SO_2 removal from stack gases: Process description, economics and pilot plant design 23(3) p. 190
Plume Dispersion
Note on estimation of plume rise for large thermal sources 23 (4) p. 293
Plumes
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676
Political Aspects
Note on intergovernmental relations in air pollution research 23(6) p. 528
Report on the first APCA government affairs seminar 23(6) p. 475
Strengthening the Clean Air Act 23(12) p. 1019
Pollution Control Programs
Interaction of population growth, industrial growth and pollution control 23(1) p. 11
Pollution control by locational change and technological abatement 23(12) p. 1045

Pollution Effects
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Pollution Indices
Cost effectiveness of emission control 23(3) p. 173
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Pollution Sinks
Model for gaseous pollutant sorption by leaves 23(11) p. 957
Pollution Surveys
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Population Growth Rate
Interaction of population growth, industrial growth and pollution control 23(1) p. 11
Poultry
Air pollution research needs: Livestock production systems 23(4) p. 267
Precipitation
Source and budget of sulfate in precipitation from central Alberta, Canada 23(3) p. 194
Prediction Systems
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676
Product Guide
Product Guide/1973 23(12) p. 1097
Program Evaluation
Reducing air pollution by automobile inspection and maintenance: A program analysis 23(10) p. 845
Tools for evaluating new process and control plans 23(6) p. 482
Pulverized Coal
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773

Quality Standards
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Air quality standards: National and international 23(11) p. 945
New method for measuring average 24-hour nitrogen dioxide concentrations in the atmosphere 23(1) p. 30
Report on the first APCA government affairs seminar 23(6) p. 475
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505
Strengthening the Clean Air Act 23(12) p. 1019
Quenching
Control of H_2S emissions during slag quenching 23(10) p. 864
Tools for evaluating new process and control plans 23(6) p. 482

Radioactive Tracers
Barium additives as diesel smoke suppressants 23(9) p. 783
Reaction Kinetics
Effects of liquid water addition in gas turbine combustors 23(2) p. 116
Reaction Mechanisms
Nitrogen trioxide: Key intermediate in the chemistry of polluted air? 23(8) p. 716
Refuse Burning
Analysis of variability in loadings on a municipal refuse incinerator 23(4) p. 282
Regional Problems
Strengthening the Clean Air Act 23(12) p. 1019
Regulations
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Critical review of regulations for the control of sulfur oxide emissions 23(5) p. 364
Research and Development
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Air pollution research needs: Livestock production systems 23(4) p. 267
Note on intergovernmental relations in air pollution research 23(6) p. 528
University consortia: A unique approach to environmental education and research 23(9) p. 755
Residential Noise
Noise control legislation 23(4) p. 251
Respirable Particulates
Design and calibration of a high volume cascade impactor 23(9) p. 778
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Respiratory Diseases
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Responsibility
How do we really stand with the Clean Air Act? 23(10) p. 837
Ringelmann Charts
Predicting Ringelmann number and optical characteristics of plumes 23(8) p. 676

Samplers
Application of computer controlled high resolution mass spectrometry to the analysis of air pollutants 23(8) p. 704
Design and calibration of a high volume cascade impactor 23(9) p. 778
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Field evaluation of the high-volume particle fractionating cascade impactor 23(4) p. 277
Samplers, Aerosols
Effect of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Samplers, Calibration
Design and calibration of a high volume cascade impactor 23(9) p. 778
Samplers, Design
Design and calibration of a high volume cascade impactor 23(9) p. 778
Sampling
Economics of environmental quality measurement 23(8) p. 671
Sampling Methods
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791
Ethylene dosages in Denver and marketability of cut-flower carnations 23(6) p. 522
Sampling Networks
Smoke curve calibration 23(2) p. 110
Sampling Systems
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791
Procedures for handling aerometric data 23(3) p. 180
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
San Jose
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis 23(11) p. 970
Survey techniques for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Urban CO concentrations and vehicle emissions 23(8) p. 691
Urban diffusion simulation model for CO 23(6) p. 490
Satellite Remote Sensing
Note on satellite remote sensing of atmospheric aerosol 23(6) p. 527
Scrubbers
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963

Scrubbers, Design
Effect of scale-up on the performance of high energy scrubbers 23(11) p. 963
Effectiveness of vertical mist eliminators in a cross flow scrubber 23(11) p. 967
Scrubbing
Atomization and cloud behavior in venturi scrubbing 23(7) p. 600
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122
Scrubbing Systems
Molten carbonate process for SO_2 removal from stack gases: Process description, economics, and pilot plant design 23(3) p. 190
Tools for evaluating new process and control plans 23(6) p. 482
Size Separation
Design and calibration of a high volume cascade impactor 23(9) p. 778
Slag Pits
Control of H_2S emissions during slab quenching 23(10) p. 864
Smelters
Air pollution abatement in primary aluminum potlines: Effectiveness and cost 23(2) p. 98
Smoke Control
Barium additives as diesel smoke suppressants 23(9) p. 783
Smoke Measurement
Smoke curve calibration 23(2) p. 110
Smoking
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Socioeconomic Aspects
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Interaction of population growth, industrial growth and pollution control 23(1) p. 11
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105
Source Inventories
Air quality data analysis system for interrelating effects, standards and needed source reductions 23(11) p. 933
Trace metal pollution in the environment 23(10) p. 853
Spectrophotometric Analysis
Note on an evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline Method) 23(6) p. 525
St. Louis
Pollution control by locational change and technological abatement 23(12) p. 1045
Urban diffusion simulation model for carbon monoxide 23(6) p. 490
Stack Height
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505
Stack Sampling
Mercury balance on a large pulverized coal-fired furnace 23(9) p. 773
Standardization
Collaborative testing of methods to measure air pollutants II. The non-dispersive infrared method for carbon monoxide 23(10) p. 870
Standards
IGCI Executive forum examines growth trends in the business of gas cleaning 23(3) p. 169
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505
Surface transportation noise and its control 23(8) p. 701
Standards, Carbon Monoxide
Survey technique for determining the representativeness of urban air monitoring stations with respect to carbon monoxide 23(8) p. 685
Standards, Nitrogen Oxides
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769
Standards, Oxidants
Non-methane hydrocarbon air quality measurements 23(7) p. 597
Standards, Particulates
Critical review of regulations for the control of particulate emissions 23(5) p. 376
Standards, Sulfur Oxides
Critical review of regulations for the control of sulfur oxide emissions 23(5) p. 364
Sulfur dioxide standards: Primary more restrictive than secondary? 23(12) p. 1039
State Problems
Note on intergovernmental relations in air pollution research 23(6) p. 528
Stationary Sources
Developments in sampling and analysis instrumentation for stationary sources 23(7) p. 587
Pollution control by locational change and technological abatement 23(12) p. 1045
Report on the first APCA government affairs seminar 23(6) p. 475
Stack height requirements implicit in the federal standards of performance for new stationary sources 23(6) p. 505
Steelmaking Processes
Control of H_2S emissions during slab quenching 23(10) p. 864
Stockholm
Sensory measurement of ambient traffic odors 23(8) p. 697
Sulfates
Source and budget of sulfate in precipitation from central Alberta, Canada 23(3) p. 194
Sulfur Compounds
Ambient air monitoring for sulfur compounds 23(9) p. 761
Effects of some air pollutants and meteorological conditions on airborne algae and protozoa 23(10) p. 876
Sulfur Dioxide
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Note on an evaluation of the reference method for determination of sulfur dioxide in the atmosphere (Pararosaniline Method) 23(6) p. 525
Sulfur dioxide standards: Primary more restrictive than secondary? 23(12) p. 1039
Sulfur Dioxide, Concentration
Ambient and source SO_2 detector based on a fluorescence method 23(6) p. 514
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941
Sulfur Dioxide, Emissions Control
Molten carbonate process for SO_2 removal from stack gases: Process description, economics, and pilot plant design 23(3) p. 190
Sulfur Dioxide, Health Effects
Family surveys of irritation symptoms during acute air pollution exposures 23(2) p. 81
Sulfur Dioxide, Monitoring
Evaluation of the effectiveness of the lead peroxide method for atmospheric monitoring of sulfur dioxide 23(7) p. 605
Sulfur Oxides
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791
Sulfur Oxides, Emissions Control
Critical review of regulations for the control of sulfur oxides emissions 23(5) p. 364
Sulfur Recovery
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122
Sulfuric Acid
Condensed sulfur trioxide—particulate or vapor? 23(9) p. 791

Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769

Surveys
Critical review of regulations for the control of particulate emissions 23(5) p. 376

Sweden
Air quality standards: National and international 23(11) p. 945

Synergistic Effects
Revaluation of the "Chattanooga school children study" in the light of other contemporary governmental studies: The possible impact of these findings on the present NO_2 air quality standard 23(9) p. 769

Systems Design
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91
Inspection and maintenance for reducing automobile emissions: Effectiveness and cost 23(4) p. 273

Temperature Measurement
Control of H_2S emissions during slag quenching 23(10) p. 864

Tennessee Valley Authority
Simplified technique used to evaluate atmospheric dispersion of emissions from large power plants 23(5) p. 388
Solids from wet limestone scrubbing of power plant stack gases 23(2) p. 122

Topography
Operational forecasting of undesirable pollution levels based on a combined pollution index 23(11) p. 941

Toronto
Noise monitoring and a sociological survey in the City of Toronto 23(2) p. 105

Toxicity
Effluent fee schedule for air pollutants based on pindex 23(6) p. 486
Methane in air quality and automobile exhaust emission standards 23(7) p. 592

Trace Analysis
Analysis of ppm levels of gases in air by photoionization mass spectrometry 23(10) p. 858

Trace Metals
Trace metal pollution in the environment 23(10) p. 853

Traffic
Effect of plantings on radiation of highway noise 23(3) p. 185
Preliminary study of modeling the air pollution effects from traffic engineering alternatives 23(6) p. 499
Sensory measurement of ambient traffic odors 23(8) p. 697
Urban diffusion simulation model for carbon monoxide 23(6) p. 490

Trend Analysis
IGCI Executive forum examines growth trends in the business of gas cleaning 23(3) p. 169

USSR
Air quality standards: National and international 23(11) p. 945

Ultraviolet Fluorescence
Ambient and source SO_2 detector based on a fluorescence method 23(6) p. 514

United Nations
Air quality standards: National and international 23(11) p. 945

United States
Air quality standards: National and international 23(11) p. 945
Smoke curve calibration 23(2) p. 110

University Consortia
University consortia: a unique approach to environmental education and research 23(9) p. 755

Urban Planning
Emission prediction and control strategy: Evaluation of pollution from transportation systems 23(2) p. 91

Urban Problems
Ethylene: An urban air pollutant 23(6) p. 517
Note on an urban diffusion simulation model for carbon monoxide and the need for accurate span gas analysis 23(11) p. 970
Urban CO concentrations and vehicle emissions 23(8) p. 691
Urban diffusion simulation model for carbon monoxide 23(6) p. 490

Vegetation
Effect of plantings on radiation of highway noise 23(3) p. 185
Model for gaseous pollutant sorption by leaves 23(11) p. 957

Vegetation Effects
Absorption of gaseous air pollutants by a standardized plant canopy 23(3) p. 203
Air pollution research needs: Herbaceous and ornamental plants and agriculturally generated pollutants 23(4) p. 257
Ethylene dosages in Denver and marketability of cut-flower carnations 23(6) p. 522
Ethylene: An urban air pollutant 23(6) p. 517

Vegetation Injuries
Aerial detection of vegetation damage utilizing a simple 35-mm camera system 23(9) p. 788

Venturi Scrubbers
Atomization and cloud behavior in venturi scrubbing 23(7) p. 600

Visibility
Note on satellite remote sensing of atmospheric aerosol 23(6) p. 527

Washington, D. C.
Ethylene: An urban air pollutant 23(6) p. 517
Urban CO concentrations and vehicle emissions 23(8) p. 691

Water, Additive
Effects of liquid water addition in gas turbine combustors 23 (2) p. 116
